Re: Maple #1 and Maple #2 Placer Claims

Dear Dennis:

I have personally examined the records on file with the Summit County Recorder's Office, State of Utah, and the claims on file with the Bureau of Land Management, Salt Lake City office regarding Maple #1 and Maple #2 filed by Gene William Gray.

Without expressing an opinion as to the sufficiency of title, it appears that the claims have been properly filed with the Summit County Recorder's Office on April 22, 1980, both as a placer claim and as a lode claim recorded as entry numbers 165949 to 165952, inclusive, and recorded in Book M 156 at pages 525-530, inclusive.

Said claims were also placed on record with the BLM Office in Salt Lake City, Utah on April 25, 1980 in the name of Gene William Gray, and designated as Maple Placer #1-2 and Maple Lode #1-2, and were given UCM #215349-215352. Said claims appear to have been properly placed of record with the BLM Office.

The claims are located as to Maple #1 in the SE $\frac{1}{4}$ of Section 3, T 2 S, R 4 E, SLBM, and as to Maple #2 in the NE $\frac{1}{4}$ of Section 10, T 2 S, R 4 E, SLBM.

Yours very truly,

David K. Smith

David S. Monson
LIEUTENANT GOVERNOR

WESTERN INTERNATIONAL CORPORATION

SILVER MAPLE MINE

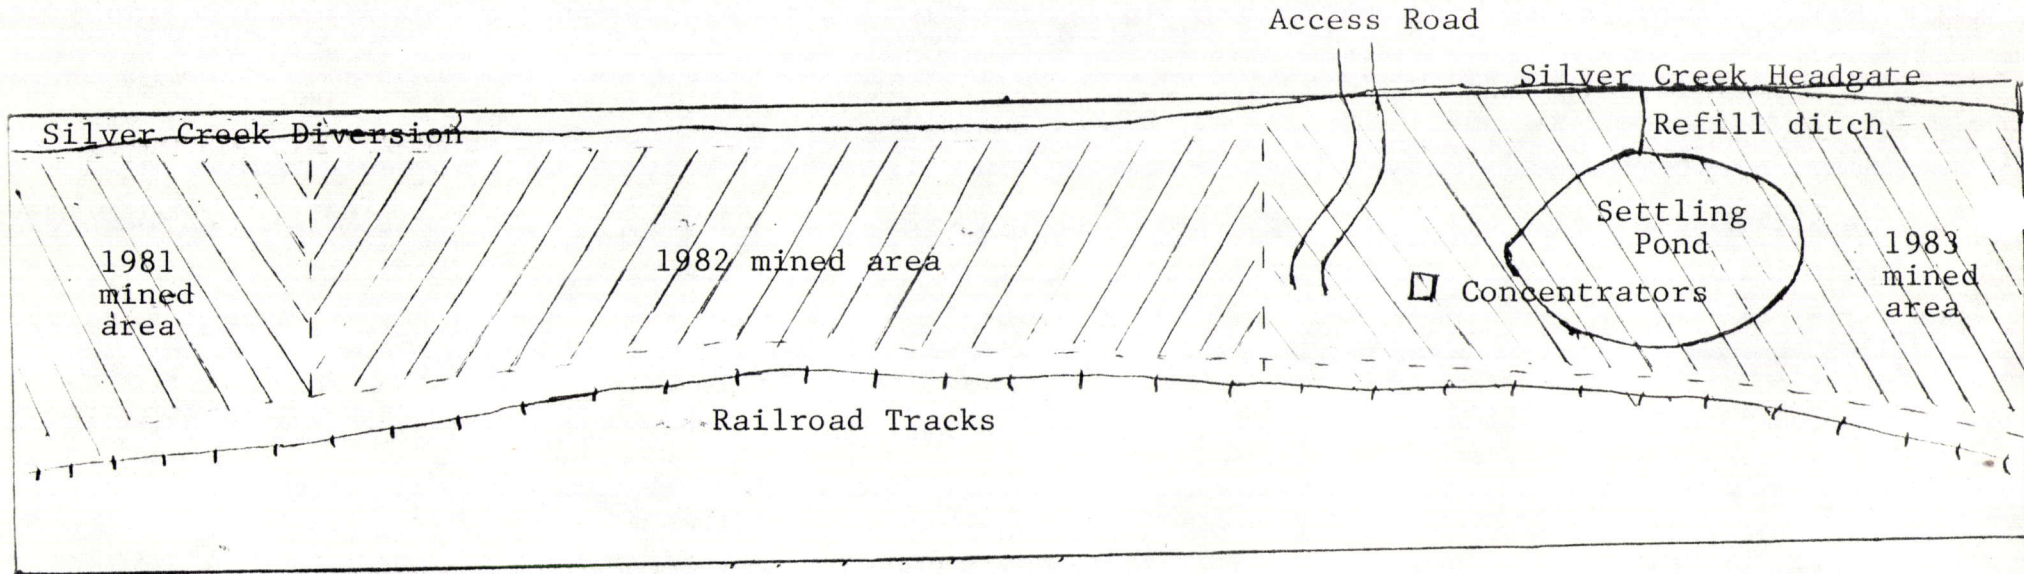

Scale 1" = 250 ft.

WESTERN INTERNATIONAL CORPORATION - SILVER MAPLE MINE

MINING SEQUENCE

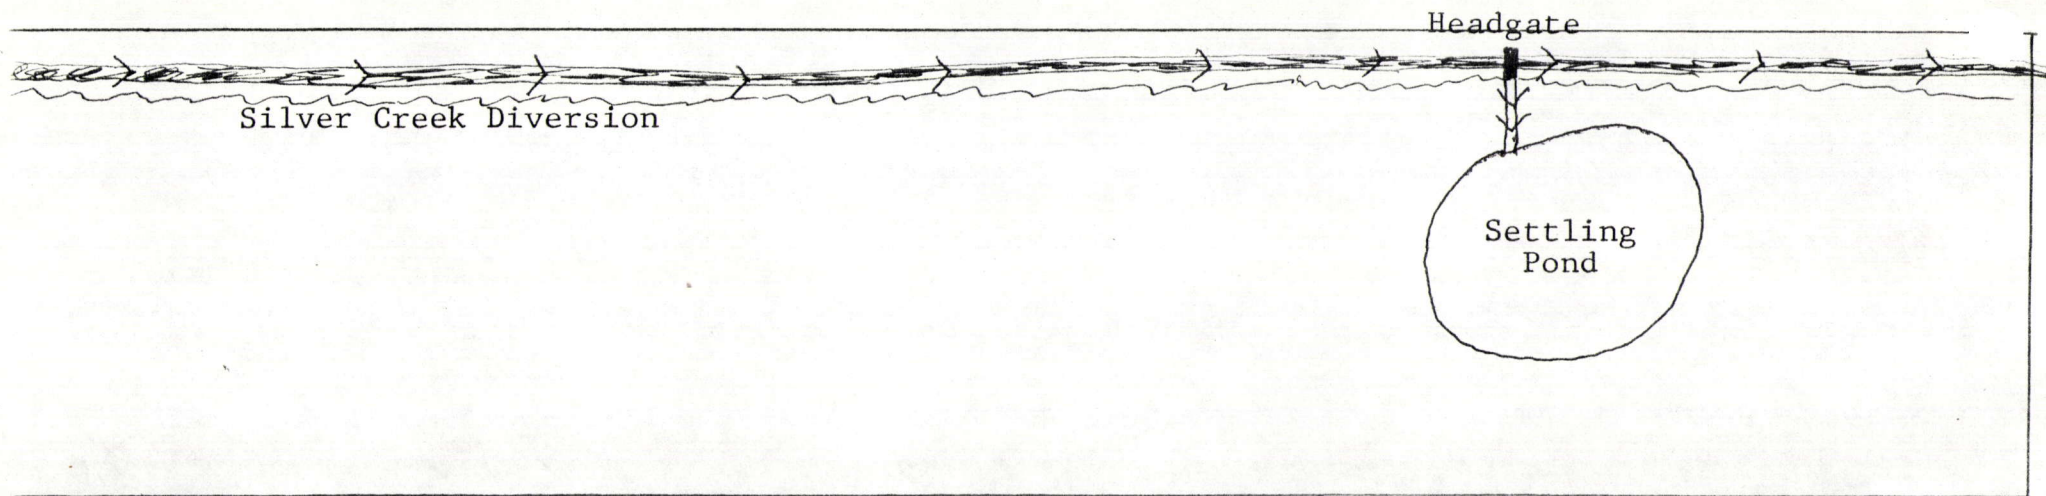

Scale 1 inch = 250 feet

A total of approximately 178,000 cubic yards will be displaced at the rate of 3300 cubic yards per week. We will operate ten weeks in 1981 (2.27 surface acres), 25 weeks in 1982 (5.68 surface acres), and 19 weeks in 1983 (4.31 surface acres). The mining depth will be to the bottom of the tailings (approximately 9 feet) and materials will be returned to their original site. Concentrates will be hauled to Salt Lake for refining periodically as needed. No chemicals of any kind will be used on site and the water used will be recycled in the settling pond and not returned to the stream, thus eliminating any possible pollution. A headgate will be established on Silver Creek and rights to the water will be secured from the Paces or Gilmores or both. Reclamation will be accomplished as we progress. Soil analysis makes it appear that no topsoil will be needed. When final contouring is completed, we will then test for soil fertility through U.S.U. & follow their recommendations. The irrigation canal will not be affected in any way.

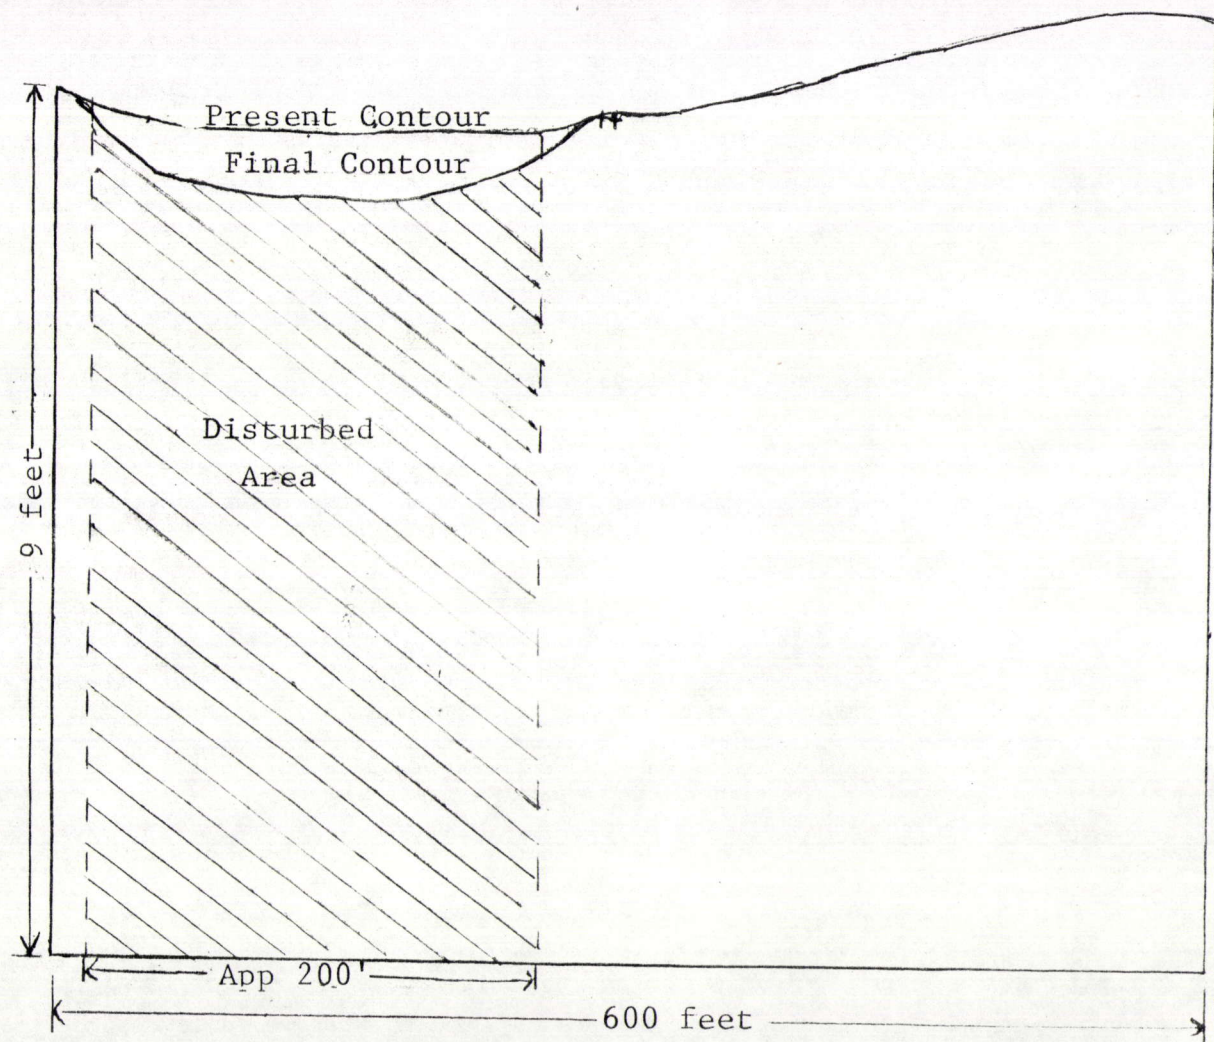

WESTERN INTERNATIONAL CORPORATION
SILVER MAPLE MINE
EFFLUENT CONTROL

Legend:  Silver Creek
 Berm along bank
 Ditch
 Directional flow

There will be no topsoil waste stockpiles, toxic materials used, discharge points for water effluents, nor drill holes. Since the water is not being returned to the stream, sediment control is unnecessary and the acid and salt content of the water will not be affected, nor will the suspended solids or total dissolved solids change; nor will there be any change in a toxic mineral analysis.

WESTERN INTERNATIONAL CORPORATION
TYPICAL TOPOGRAPHY CROSS SECTION
SILVER MAPLE MINE

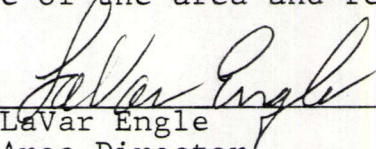

RECLAMATION PLAN

We have mentioned earlier that we plan on building condominiums on the property after we complete our mining operations and you have asked for several items supporting this decision.

We cannot build condominiums until we have fee simple title which may or may not happen. We will begin patent proceedings as soon as we have extracted \$80,000 in minerals, then that is no guarantee we will succeed in the patent procedures.

Therefore, for the purposes of this permit, we will proceed as if we will revegetate the land. Soil analysis makes it appear that no topsoil will be needed. We plan to recontour the land as we progress in our operations and we will reseed as we go. We plan to have the soil tested for fertility at Utah State University after the final contouring and we will follow their recommendations for soil preparation and seeding. At that time, we also plan to coordinate with Park City to beautify the area to fit with whatever plans they may have for the adjoining area. We know at this point, they are planning a park adjacent to our property and we certainly don't want to detract from it.

In conclusion, we make every assurance that the land will be equally or more attractive as it is now, and we will do whatever is necessary to protect the health and welfare of the area and residents pertaining to our operations.

Lavar Engle
Area Director
Western International Corp.

PERMIT

District No. Two Date April 17, 1981 Application of Western International Corporation, By Dennis K. Engle, Title President
Address 1399 So. 700 E. Suite 16 ⁸⁴¹⁰⁵ Salt Lake Phone 487-3615, in Salt Lake County
is hereby granted, subject to the Regulations for the Control and Protection of State Highway Rights-of-Way, Standard Specifications for Road and Bridge Construction, Specifications for Excavation on State Highways, General Safety Orders of the Industrial Commission, Safety Manual for Road and Bridge Construction, Instructions to Flagmen, the approved plans, and any special limitations set forth herein, permission for the purpose of installing an access opening in accordance with the plot plan approved by this office. (Note the changes and notations made on the plot plan.)

within right-of-way limits of Highway No. SR-248, State Maintenance Section No. 235,
Milepost No. _____, in the following location:
SR-248, about 1/2 mile east of Park City limits

Receipt of \$5.00 permit fee is hereby acknowledged (delete where not applicable). The work permitted herewith shall commence July 1, 1981 and shall diligently be prosecuted to completion. The work shall be completed and all disturbed surfaces or objects restored on or before July 10, 1981. In the event work is commenced under this permit, the applicant agrees to prosecute the same to completion by the date herein above specified. In the event the applicant fails or refuses to complete the work the Utah Department of Transportation may, at its election, fill in or otherwise correct any existing impediments at the expense of and subject to immediate payment by the applicant.

Applicant shall execute a bond in the minimum amount of \$1000, increased by multiples thereof as determined by the District Director, to insure faithful performance of the permittee's obligation. The bond shall remain in force for three years after completion of the work.

Before work permitted herewith is commenced, the applicant shall notify: A. J. Sopko 533-6283 and commencement of said work is understood to indicate that the applicant will comply with all instructions and regulations of the Utah Department of Transportation with respect to performance of said work, and that he will properly safeguard said work to prevent accident and shall indemnify and hold harmless the Utah Department of Transportation from all damages arising out of any and all operations performed under this Permit.

Permittee shall not perform any work on State highway right-of-way beyond those areas or operations stipulated on the permit.

If applicant fails to comply with Utah Department of Transportation regulations, specifications, or instructions pertinent to this permit, the District Director or his duly authorized representative may by verbal order suspend the work until the violation is corrected. If the applicant fails or refuses to comply promptly, the District Director or his authorized representative may issue a written order stopping all or any part of the work. When satisfactory corrective action is taken, an order permitting resumption of work may be issued.

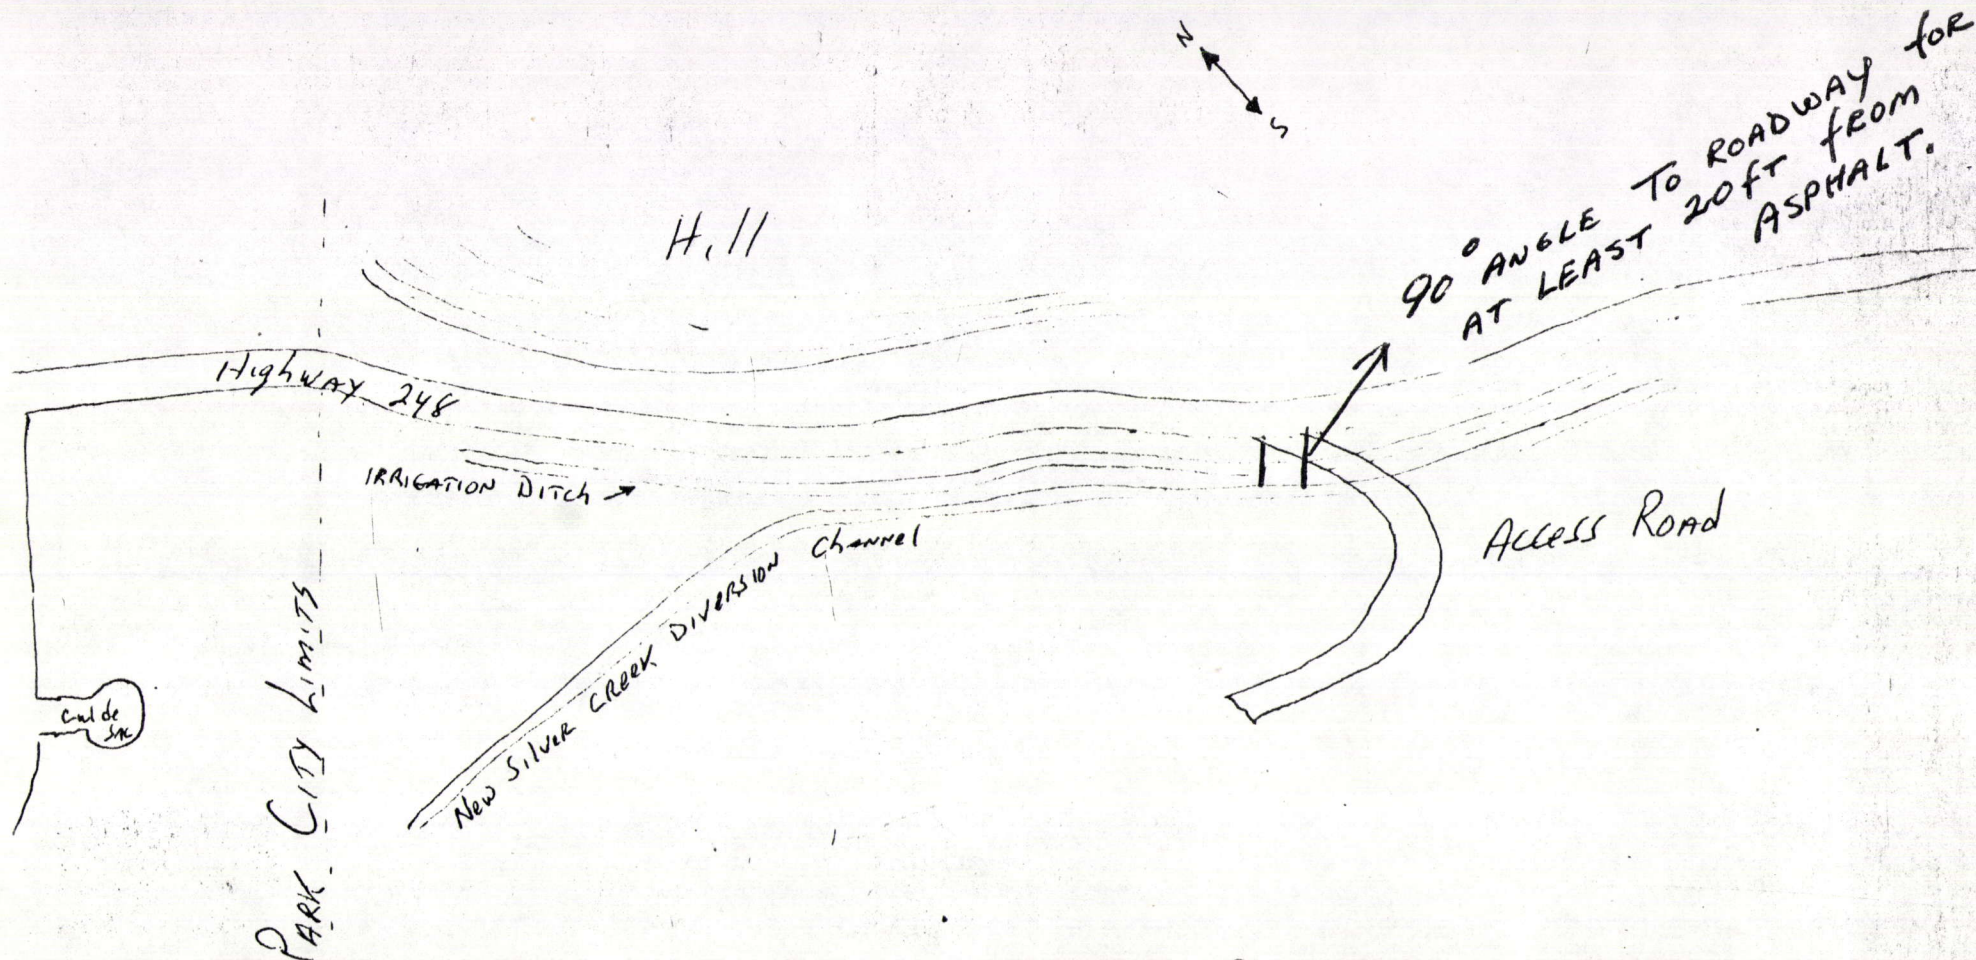

Special Limitations: PERMIT HOLDER RESPONSIBLE FOR REPAIRING AND/OR RESTORING ANY PORTION OF THE ROADWAY DAMAGED DURING CONSTRUCTION

District Director

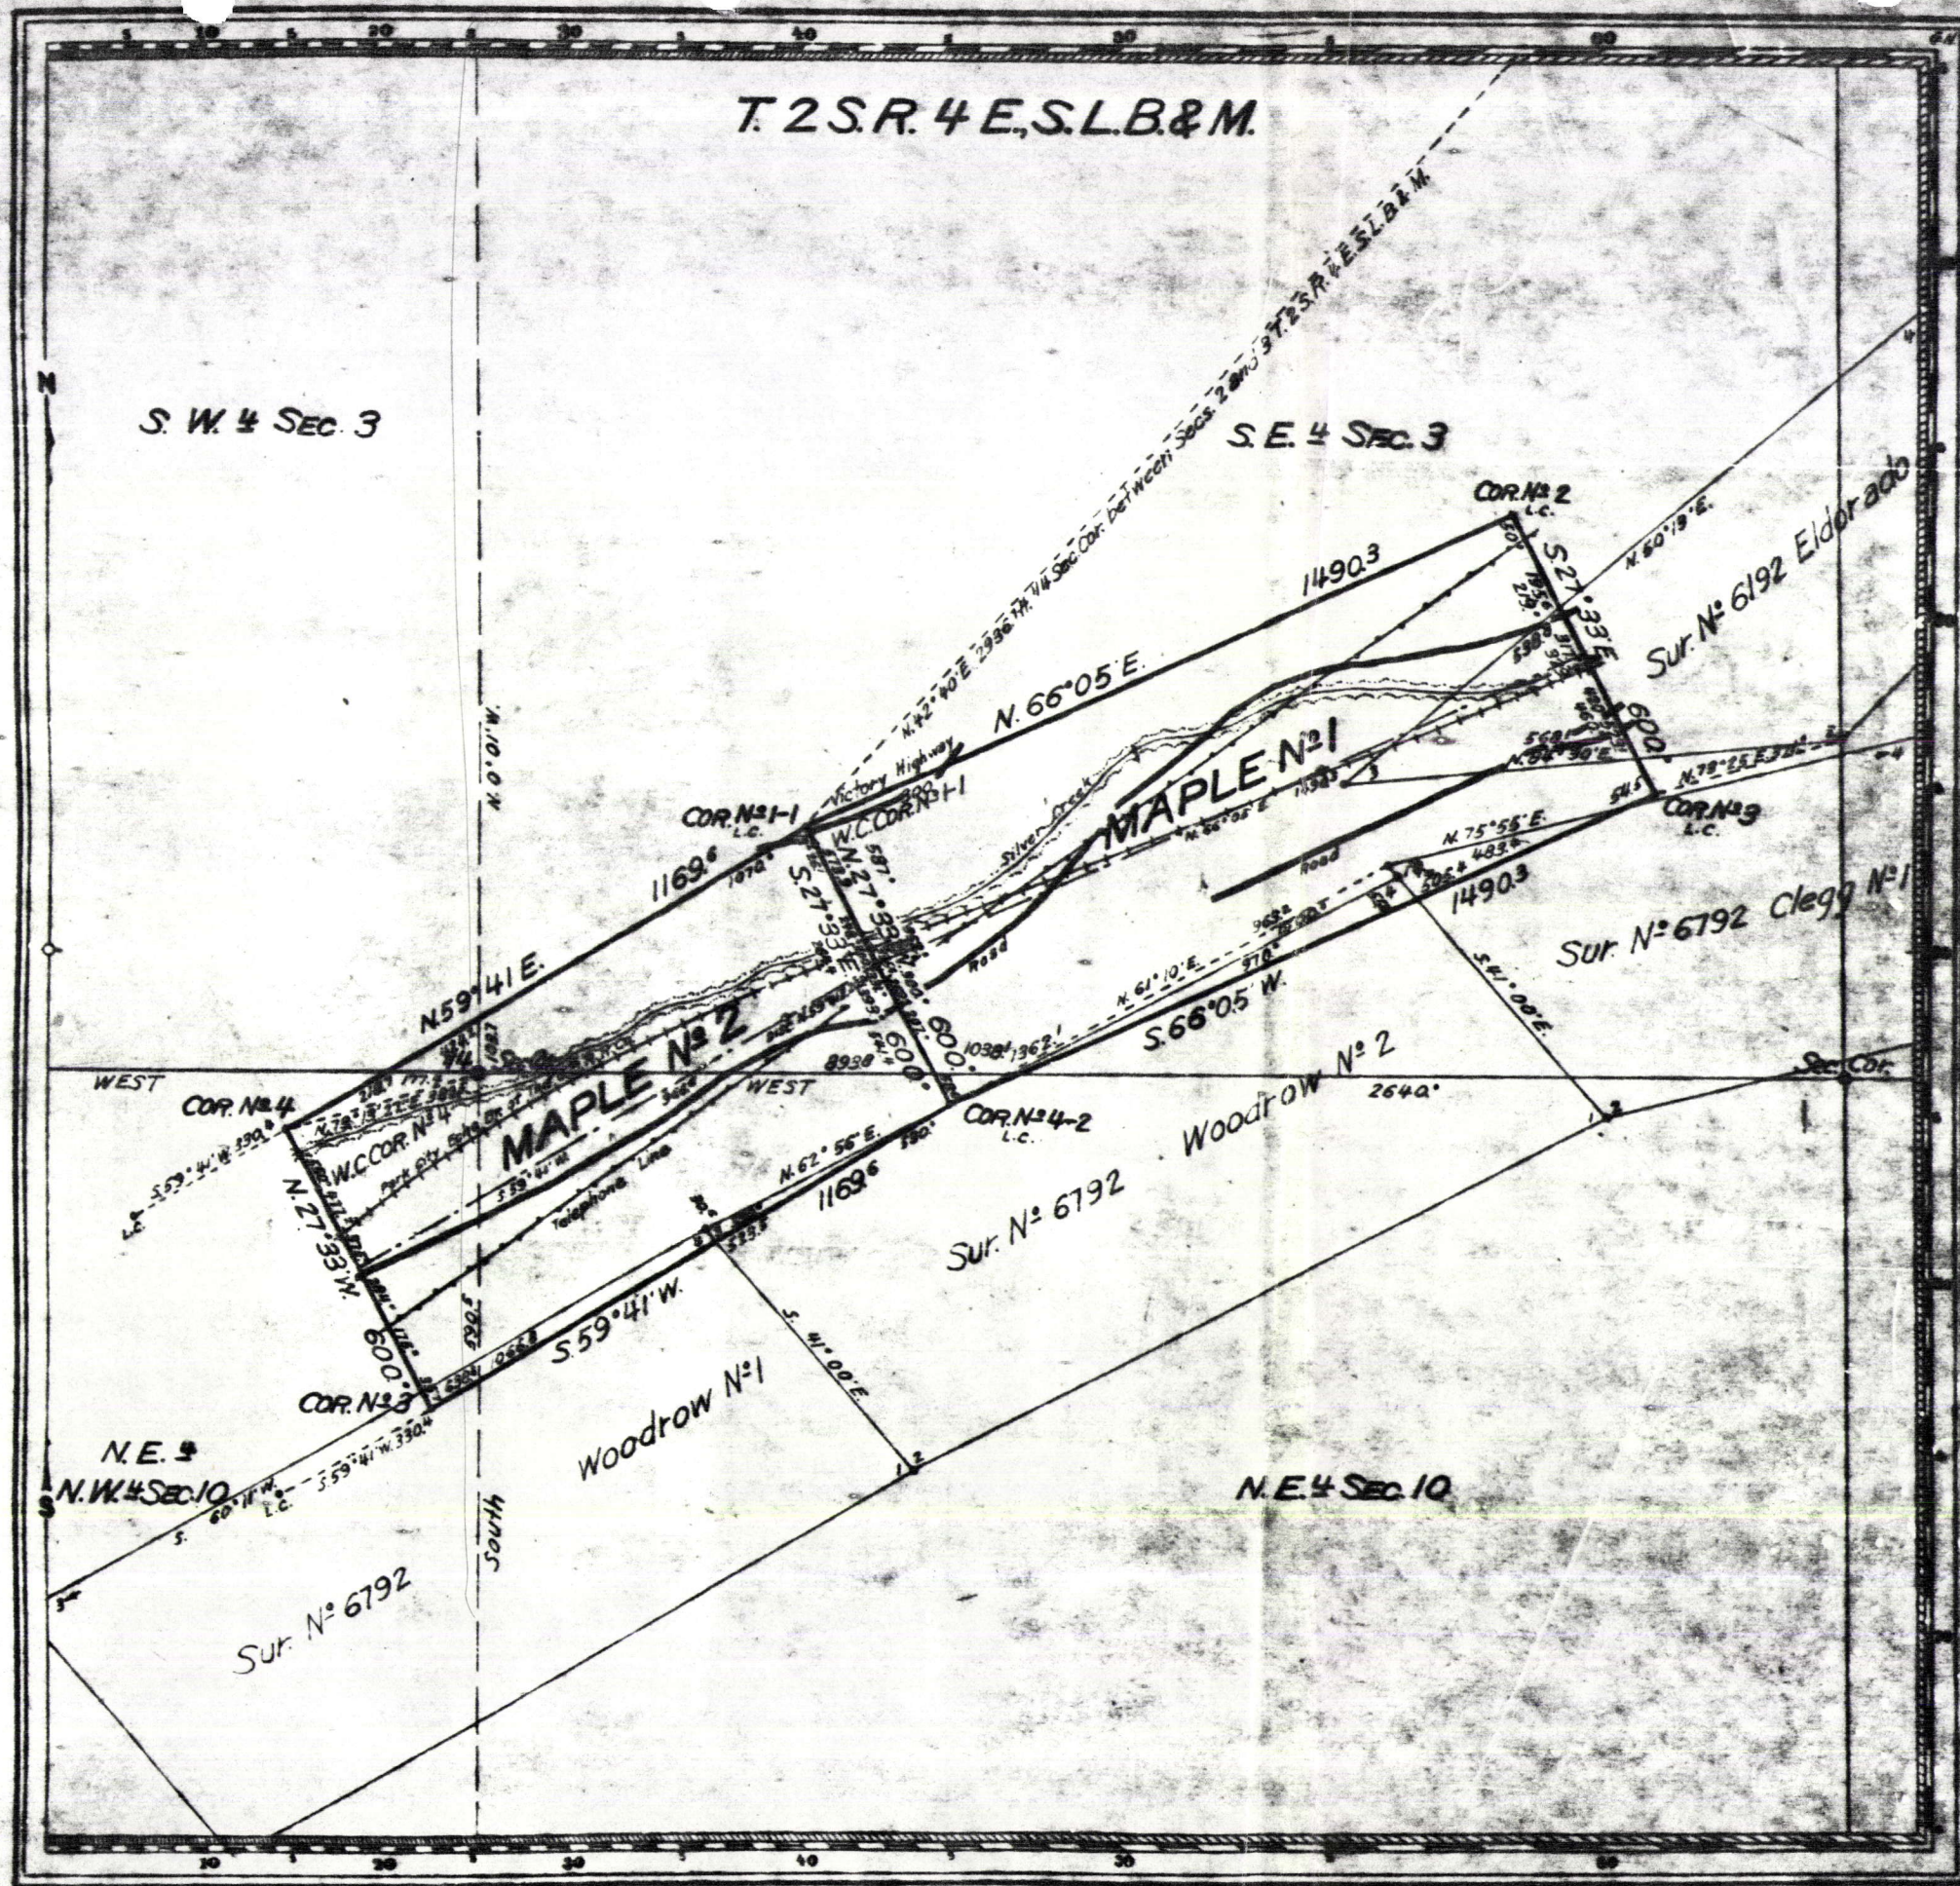

This proposed access road is approximately 2000 feet from the Park City Limits. It will be about 30 feet wide of gravel construction. We will use galvanized conduit pipe to bridge the existing irrigation ditch and the new Silver Creek channel that we will change per our permits with the State. This road will be used for employees getting to the property and equipment set up and removal. There will be about 10 employees, so the usage will be very light.
